* In cases of towns where there has been an abnormal movement of population, it is likely that the population estimates may not be sufficiently reliable for calculating the birth and death rates.

† Figures not available.

Explanation of symbols: B.—Births; B.R.—Birth Rate; C.—Colds; S.—Smallpox; P.—Pneumonia; F.—Fever; D.D.—Dysentery and Diarrhoea; M.D.—Maternal Deaths; D.R.—Death Rate; I.D.—Infantile Deaths (included in total deaths).

REMARKS

The figures of births and deaths shown in this statement for week ending the 27th June, 1953, relate to 22 towns with an estimated population of 18,992 thousands. The total number of towns is 296 and their population is 6,122 thousands. Thus 41% of the total number of towns representing 52% of the total population is covered in this statement. The numbers of births and deaths recorded in these towns were 9,660 and 4,789 representing birth and death rates of 26.4 and 13.1 per thousand of population respectively.

(A) States (Parts A and C).—The data here relate to 08 towns with an estimated population of 16,399 thousands. Information about Assam, Bihar, Madras and West Bengal could not be included. The total number of towns is 250 and their population is 30,772 thousands. Thus 43% of the total number of towns representing 53% of the total population is covered. The numbers of births and deaths recorded in these towns were 8,368 and 4,137

representing birth and death rates of 26.5 and 13.1 per thousand of population respectively. The table at the end gives the position by States.

No town recorded a high death rate of 50 or over per thousand of population.

(B) States (Part B).—The data here relate to 14 towns with an estimated population of 2,593 thousands. The total number of towns is 46 and their population is 5,350 thousands. Thus 30% of total number of towns representing 48% of total population is covered. The numbers of births and deaths recorded in these towns were 1,292 and 652 representing birth and death rates of 25.9 and 13.1 per thousand of population respectively.

No town recorded a high death rate of 50 or over per thousand of population.
